PROJECT REPORT

TITLE: Point of Sale System

TEAM MEMBERS-
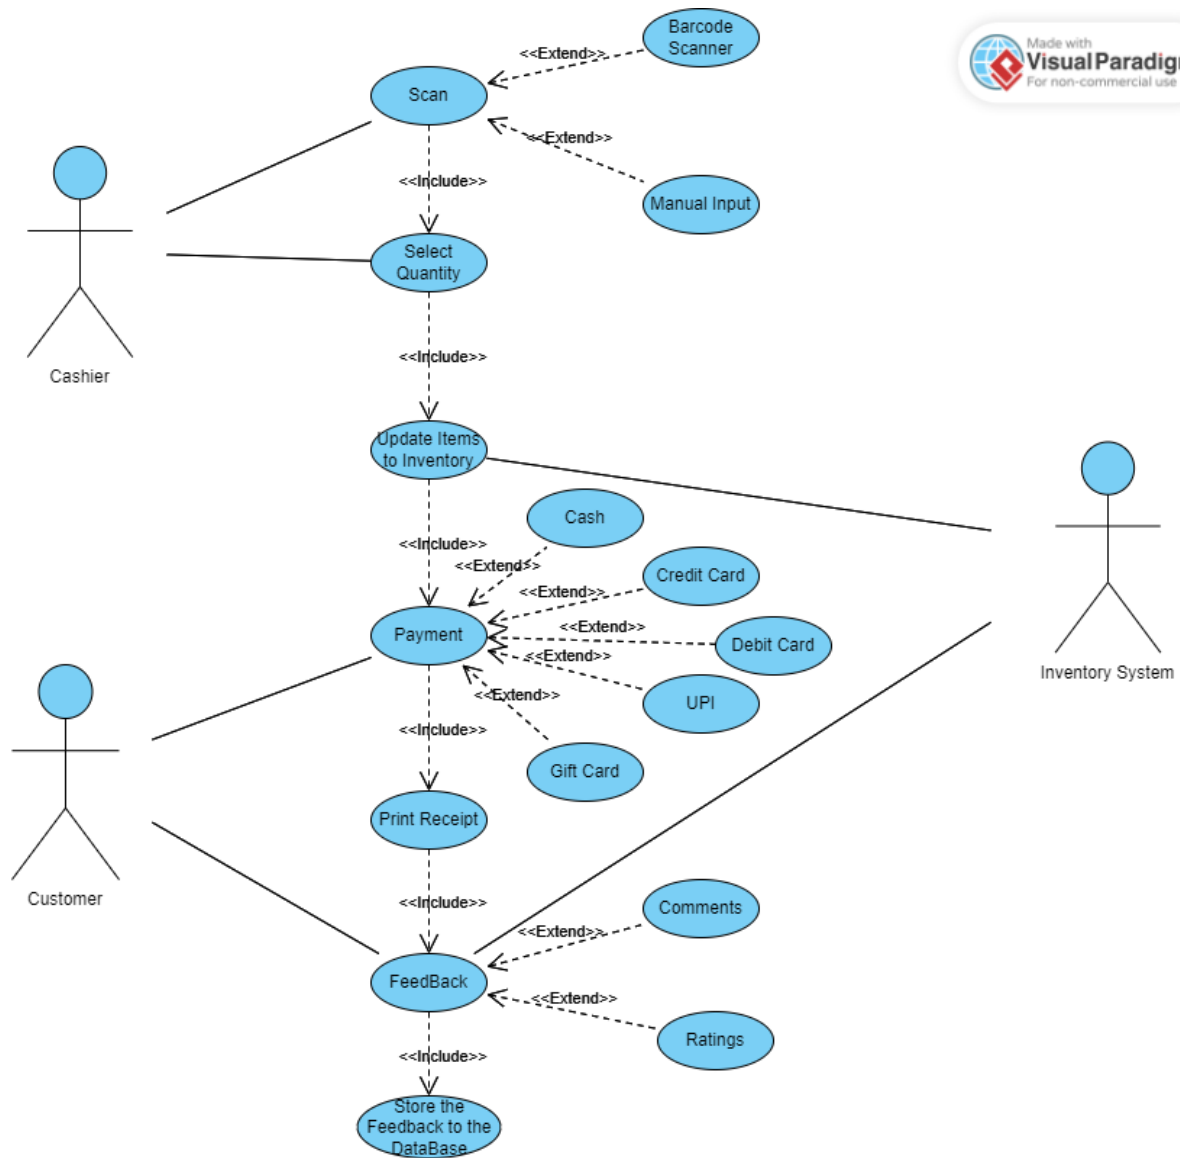

1) SAMPREETH NADIG (PES1UG20CS371)
2) SANATH SREEKANTH K (PES1UG20CS373)
3) SANKALP KUNDU (PES1UG20CS383)
4) SHAMITH V S (PES1UG20CS390)

SYNOPSIS

A point of sale system, or POS, is the place where your customer makes a payment for products or services at your store. Simply put, every time a customer makes a purchase, they're completing a point of sale transaction. Our system aims to:

1) Authorize Payments through a variety of methods like UPI, credit card, debit card etc
2) Calculate product price and apply discounts
3) Subtract purchased quantity from inventory
4) Take feedback from customer and store it to a file
